

## WHY I LOVE MY DRESS!

We camped out at Gabriella New York for a day to ask brides-to-be how they knew their wedding gown was "the one." (Three women, three very different answers!)

Brides can't resist Gabriella's one-of-a-kind vintage jewelry, like these crystal earrings.

» "The tulle makes the dress so soft and romantic. It's lighter than a typical ball gown, so it's easy to move in—which will be so much fun on the dance floor."

» "The architectural style reminds me of an art-deco building. The fact that there's no lace or frills might seem odd for a country wedding, but it fits my personality."
